

Topic

'How to stay relevant in an ever faster changing tech world'
Using the model of Questions, Change & Challenge.

For Whom

A broad variety of audiences. From starting entrepreneurs, to management level, to experienced (non) executive boards of corporates.
On request it can be customized including a follow-up workshop.

Promise

To get the audience open to reflect and connect. Willing to look at things from a different perspective. To start a real dialogue. To 'check for bugs'. With an open mind and less biased, to increase the change of personal or business success.

Time frame

Talk : 1 hour

Q&A : ½ hour

Optional: adding a short customized workshop (2-2½ hours)

Short synopsis

Within my lecture I share some personal and general insights, to be used both personally as for business models.

I will take the audience through some of my experiences (good and bad), different cases, success stories, do's and don'ts and of course my learnings.

Using some inspirational tools, pics and some videos.

Asking them to participate at experiments and be interactive with Q&A.

I will do this using a guiding principle, which is my: Questions, Change & Challenge Model.

My goal is to convince always:

1. Keep on asking questions.
2. Embrace change.
3. Dare to challenge yourself and your environment.
